

Our Values

IN CARE FOR THE RIGHT REASONS

Established in 1952, Corton House began as the first purpose-built voluntarily run home for older people in England.

We continue to operate as a not for profit organisation today with a mission **to provide excellent, loving care and support for older people** through Corton House care home, our independent living scheme Brakendon Close, and our community outreach projects.

We are a Real Living Wage accredited employer and understand that we need to look after our staff so they can give their best in looking after our residents. We are pleased that many of our staff have over ten years' service with us.

Corton House is a Cooperative & Community Benefit Society registered with the FCA. Registration No. IP13969R

A CHRISTIAN ETHOS, OPEN TO ALL

Our Christian ethos of kindness and caring for one another continues to underpin everything we do today.

We are home to people of all faiths and none.

We have our own Chaplain who, in addition to offering worship services, is always available with a listening ear for a friendly chat and pastoral support no matter what your religious or spiritual beliefs.

A COMMUNITY INSIDE AND OUT

We pride ourselves on fostering a strong sense of community within Corton House and Brakendon Close. We believe in creating an environment where fellow residents can build firm friendships and be neighbourly to one another.

We have also forged strong connections with our wider local area through our community outreach projects, such as our Community Café, an intergenerational lunch club for vulnerable older people, parents and babies.
